## INFORMATION SHEET

# INFORMATION SHEET

## About the Adult Learning Fund Program

The Adult Learning Fund specifically targets areas of skills demand in priority industries. It supports skill sets and full qualifications where there is demonstrated need.

The program supports individual learners to attain skills they need to improve their employment opportunities. Direct involvement from employers such as recruitment support, program development, mentoring and/or hosting work placements, has resulted in employment outcomes. The preferred outcome of this program is that the learner is either job ready, employable and obtains employment or is on a pathway towards becoming job ready and employable.

The registered training organisations listed below have applied through a rigorous grant application process and have identified strong support from their industries. This support includes identification of real jobs for those jobseekers if they are successful in completing the training and are a 'good fit' for the businesses.

The **Jobseeker Stream** supports individuals to attain skills they need to improve their employment opportunities. Direct involvement from employers often results in better outcomes. The preferred outcome of this program is that the learner is job ready and employable.

All individuals participating will be provided with a work placement that are with employers often looking for new employees. The work placement is an opportunity for employers to see at first hand the calibre of the learners and to use the process as a recruitment tool.

The **Pre-Jobseeker Stream** is a pre-employment program designed to give individuals who face barriers that prevent them from accessing employment opportunities but are on an active pathway to further training opportunities and/or employment.

As part of the pre-jobseeker program, RTOs provide learners with exposure to real workplaces and employers. This is designed so the learners can get an idea of whether this is a career path that they want to pursue and quite often this exposure results in work opportunities.

### [Learner eligibility](#)

All learners accessing any of the streams under the Skills Fund program must be a Tasmanian resident aged 15 years or over. A Tasmanian resident is defined as a permanent resident of Australia living in Tasmania for a minimum of six (6) months.

A jobseeker is someone who is:

- not a school student as defined by Sections 3 and 4 of the Education Act 1994; OR
- registered with an Employment Service Provider (ESP) ; OR
- an income support recipient who is not currently required to meet activity test or participation requirements; OR
- a participant in an Australian Government labour market program; OR
- not currently working and seeking or intending to seek paid employment or self-employment after completing the qualification; OR
- not working and participating in volunteering activities; OR
- a person currently employed whose contract of employment is classified as "casual" unless otherwise specified in the documentation for each program.
